Expires 6/30/08 • Must present coupon when order is written.
May not be used with any other coupon or special.
Valid only at Alexander Automall Dealerships in Murfreesboro.

1. Vehicle Gas Caps – About 17% of the vehicles on the road have gas caps that are either damaged, loose or are missing altogether, causing 147 million gallons of gas to vaporize every year.

2. Underinflated Tires – When tires aren't inflated properly it's like driving with the parking brake on and can cost a mile or two per gallon!

3. Worn Spark Plugs – A vehicle can have either four, six or eight spark plugs, which fire as many as 3 million times every 1,000 miles, resulting in a lot of heat and electrical and chemical erosion. A dirty spark plug causes misfiring, which wastes fuel. Spark plugs need to be replaced as recommended by the manufacturer.

4. Dirty Air Filters – An air filter that is clogged with dirt, dust and bugs chokes off the air and creates a "rich" mixture - too much gas being burned for the amount of air, which wastes gas and causes the engine to lose power. Replacing a clogged air filter can improve gas mileage by as much as 10%, saving about 35 cents a gallon.

**10-MINUTE PRE-TRIP
CHECK LIST**

Bring your car into any of the service departments at the Alexander Auto-mall for a traveler's 10-minute pre-trip check off of essential safety elements:

- Have us check all fluids. Besides anti-freeze, these require attention: engine oil, power steering, brake and transmission fluids and windshield washer solvent and antifreeze/coolant.
- Have us check all hoses and belts. A belt that fails can affect the electrical system, air conditioning cooling system. Cooling system hoses may be deteriorating from within,

that old hoses and clamps in marginal condition might need to be replaced.

- Have us check the tires. We'll check tire inflation and inspect the tread for uneven wear, indicating the need for wheel alignment. We'll also look for bulges and bald spots.

**FRONT WHEEL
ALIGNMENT SERVICE**

- Check for abnormal tire wear
- Check tire pressure & adjust
- Check caster & camber (adjustment extra)
- Reset toe-in
- Inspect suspension
- Road test
