### **Abby Johnson's Story:**

Hi – I'm Abby Johnson. I am a sister, daughter, a dog lover (my two dogs Payton and Rex are the best) and I love my career as a Forensic DNA analyst for the Missouri State Highway Patrol. FYI, it is nothing like CSI Miami, LOL. Well when I was growing up I loved playing golf. My dad was a golf professional at several courses in Wisconsin and he was also the high school golf coach for my sister Ashlee and I. Most of the time it was really fun and we did really well. My junior year, we won the Wisconsin state title for Golf and my senior year I earned a golf scholarship to Southern Illinois University in Carbondale, IL... It was an excellent way to go to college and save lots of money. So when I graduated from college a few years ago, I asked my dad to help me save some money when I was buying my first new car. I knew what he was going to say, for a great car and great savings, go directly to Andrew Automotive. My dad had bought many vehicles from them so he really trusted Andrew to help me find the car I wanted, at the price I needed... So buying my first car was a really easy experience. And I really love my new Chevy Malibu.

Sincerely,  
Abby
